The grid interface provides powerful sorting, grouping and filtering, allowing you to quickly locate and analyze data.

In today's competitive marketplace, successful companies must minimize their risks and make better business decisions faster than ever before. The ability to quickly access critical business intelligence and analyze it for strategic decision making can make the difference between thriving and merely surviving.

MAS 500 Business Insights Analyzer can help you make better business decisions by providing you with insights into your business data. Now you can act quickly, decisively and confidently to maintain your competitive edge. Business Insights Analyzer is an intuitive, easy-to-use analytics tool included with MAS 500. Information is provided in a logical grid format with powerful filtering, grouping and sorting capabilities that let you organize the data in the way most appropriate to the task at hand. You also have the added flexibility of analyzing each view using the included Excel pivot tables and charts.

Business Insights Analyzer was created with Microsoft .NET and SQL Server technology, and offers system administrators the ability to easily create additional analytical views for Business Insights Analyzer.
