eORDER

Empower Your Sales Force

MAS 500's eOrder module will empower your salespeople with a level of efficiency, productivity, and customer service that is sure to boost sales. With eOrder, you can keep your sales team in the field and help them maximize their selling opportunities. eOrder empowers your salespeople with real-time remote access to critical customer account information and the ability to perform essential sales activities, including placing orders, checking order and shipment status, as well as managing invoicing, payment, and credit history. Down-time turns into up-time when your sales team has remote access to their accounts. Whether you're on the road, in the air, or at home, eOrder ensures that you can keep up with new opportunities, manage forecasts, and review sales and commission results.

eOrder also provides a streamlined way for inside sales staff to quickly enter orders. This powerful order entry screen allows employees to view item catalogs, details, descriptions, even photos, as they enter orders, speeding the order entry process. Intuitive tree navigation and quick entry features also maximize productivity. Moreover, eOrder also takes advantage of many powerful MAS 500 order entry features, such as product and customer-specific pricing.
