QuickBooks is an excellent product for small businesses that are just getting started. However, as your business grows, your accounting needs change. Sage Software understands the challenge of a growing business, which is why we offer a straightforward migration path to Sage MAS 90 and Sage MAS 200 ERP product lines and to the next level of functionality.

Making a change from software that you are comfortable with is seldom easy. To help make the conversion process fast and simple, Sage Software has designed the Data Migrator to assist QuickBooks customers like you with a painless change to Sage MAS 90 or 200 software. Enjoy all the benefits of increased functionality, customization capabilities, and flexible reporting without the need to rekey your important information. The Data Migrator can save valuable time and resources in today's fast-paced business environment.

The Conversion Guide is another helpful tool that can alleviate the fear and minimize down time when converting data. The guide outlines the workflow differences between QuickBooks and Sage MAS 90, and correctly sets your expectations when converting your data.

Our nationwide network of qualified Sage MAS 90 and 200 Conversion Specialists have the exclusive rights to our special Data Migrator. Specialists can quickly accomplish data conversion to Sage MAS 90 and 200 from QuickBooks Basic and Pro Editions. (Check with your Conversion Specialist to find the specific versions of QuickBooks.) Not only can our Conversion Specialists demonstrate the flexible, intuitive, and customizable features available in Sage MAS 90 and 200, they can also minimize the time it takes to convert your data and make it operational on your new Sage MAS 90 or 200 system. Your data will be up and running on your new system in virtually no time.

QuickBooks Data Migrator

"We selected Sage MAS 90 for our upgrade because of the easy conversion path from QuickBooks using the Data Migrator tool. We were ecstatic that data on our 2,000-plus customers converted seamlessly, as did all of our open invoices. We'd feared a horrendous upgrade process, and instead found it was relatively painless. We view this as a true success."
